Bird Lists. Since our group began I have kept a list of the birds we have seen, this now number 143. After our outing to Barwon Heads- Queenscliff we added four new birds: Horsefields Cuckoo, Brush Cuckoo, Brown Goshawk and Grey Butcherbird. Considering the weather our outing was quite satisfactory with excellent birding at Belmont Common. At Barwon Heads we had interesting viewing at The Sheep Wash and Mrs Hay's Corner. It was very hot by the time we got to Queenscliff. Under the shady trees on the foreshore was an ideal spot for lunch.
